AEROSCRAFT MODEL AEROS ML866

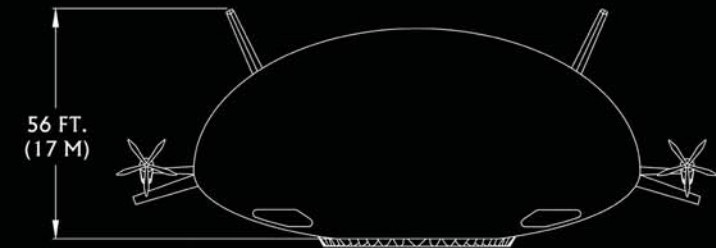

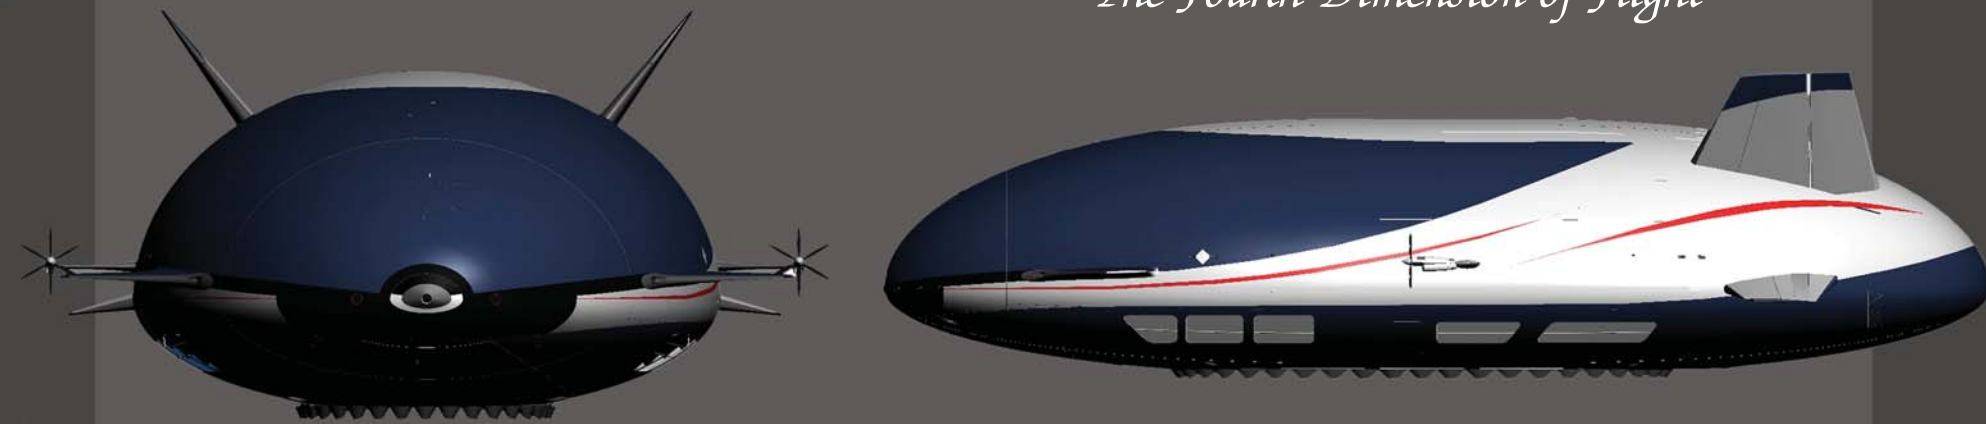

A new paradigm in air transport is born with the advent of the Aeroscraft – an aircraft that utilizes adjustable buoyant and dynamic lift, creating unique capabilities beyond what is available from any other air platform today.

The Aeroscraft is designed and built on the basis of a new concept in flight. This remarkable idea grew out of the belief that

- *Luxurious Flying Experience*
- *Supreme Cabin Size*
- *Spectacular Aerial Views*
- *Helicopter Type Vertical Takeoff and Landing*
- *Hovering Capability*
- *Freedom from Airports*

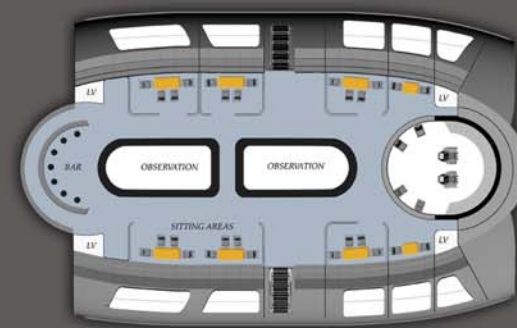

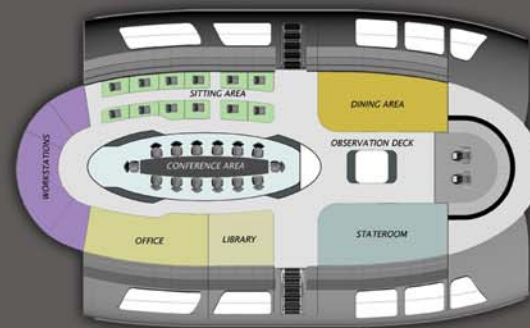

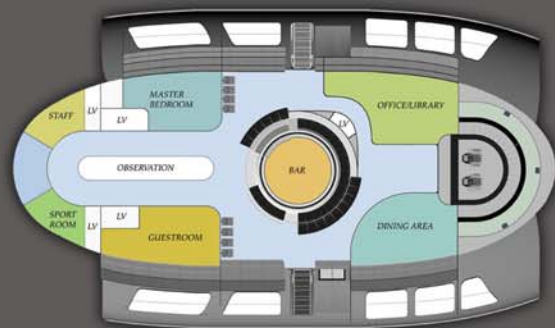

The Fourth Dimension of Flight

Private

Executive

Commercial

there is a more comfortable way to fly than simply applying a luxury upgrade to an existing airframe and re-naming it.

The capabilities of the Aeroscraft lead to its unique functionality. Use the Aeroscraft as a private sky yacht, traveling beyond the ocean, or as a fully functional business office and conference center. The luxury appointment options are endless, limited only by your imagination. The Aeros design team will help translate your dreams into an airborne reality.

Speed Range	0-138 mph	0-222 kmh
Max Operating Altitude	0-12,000 ft	0-3,657 m
Max Range	3,100 mi	5,000 km
Overall Length	210 ft	64 m
Overall Width	118 ft	36 m
Overall Height	56 ft	17 m
Cabin Area	5,382 ft ²	500 m ²
